

SECURITY & COMPLIANCE

Security:

- Role-based authorization
- JWT Authentication
- Input validation

Data Protection:

- Password hashing
- Disaster recovery
- Regular data backup

Network:

- HTTPS
- Firewall protection
- Secure server configuration

DEVOPS & CLOUD INFRASTRUCTURE

Cloud Platform:

- Docker
- Cloud Hosting (AWS / Render / Railway)
- Cloud Storage (AWS S3)

Containers:

- Docker 24+
- Docker Compose

CI/CD:

- GitHub Actions
- GitLab CI/CD
- Environment configs

MONITORING, LOGGING & PERFORMANCE

Logging:

- Winston (Node.js)
- Morgan (HTTP logs)

Performance:

- PM2 Process Manager
- Load testing (Artillery)
- Server optimization

Analytics:

- Google Analytics
- Admin dashboards
- User behavior tracking
